## PIPE, NON METALLIC

NOMINAL SIZE: 95MM

LENGTH:6M

SCHEDULE/WALL THICKNESS:7.5 MM

PRESSURE CLASS/RATING:8MPA

MATERIAL:HDPE

OUTSIDE DIAMETER: 110 MM

Our Drainage pipe is optimally slotted for maximum infiltration with minimal blockage. fabricated from the highest quality HDPE available, the twin wall sandwich design provides strength and flexibility.

The smooth inner wall ensures high flow velocity while the corrugated outer wall withstands massive confining pressure.
